Chief Information Officer

#### COMMUNICATIONS AND INFORMATION SHARING SYSTEM STATUS REPORT

My office completed a final draft report in response to your January 20, 2004 Board motion directing my office to lead efforts to assess the feasibility for an automated County/Region Communication and Information Sharing System including costs/benefits, community involvement, framework for assessing potential systems and requirements for developing a contract with NC4 or other companies to enter into a public/private partnership. After a review of this draft report by participating departments, one department has identified issues with the report's findings and recommendations that must be resolved before this report can be distributed to your Board.

Based on the issues raised and the time required to negotiate a resolution, I anticipate that the final report will be ready for distribution on or before August 15, 2004. My staff will provide your Board with periodic updates on the status of this project until it is completed.

If you need additional information on the status of the report, please contact me at 213.974.2008 or John McIntire, Associate CIO, at 213.974.2154.
